Sitchin's Discoveries About The Sumerians

The Sumerians recorded the first atomic blast in 2025 B.C.

This got my attention, how about you? Read on ...

Find out details on how the earth, our moon and the asteroid belt were created. Learn about the creation of man in a test tube, about DNA and cloning.

Hear about the journey from another planet to Mars, on to earth, and then back home. About gold mining on earth to save the atmosphere of the visitors' planet. Learn about other planets of our universe only recently discovered, but described in accurate detail by visitors from another planet thousands of years ago. These visitors came in what we would call UFOs, but they showed us what they looked like and we have a model.

Take a look at immense stone formations in Baalbek, Jerusalem, Egypt, and elsewhere on our earth that no modern method can hew or transport. Yet the means was there thousands of years ago.

So you think the development and exploding of an atomic bomb was only of recent history? Wrong. The Sumerians recorded the first atomic blast in 2025 B.C., the evidence of which has recently been confirmed by scientists. This is even referred to in the Bible.

How do we know of these astounding things that are unfolding almost daily and being confirmed by scientists? Through the discovery and reporting of Dr. Zecharia Sitchin in the nine books he has written to date. His discoveries come from the tablets and artifacts left by the ancient Sumer civilization of 6,000 years ago. He is one of a small number of people who can read the Sumerian language. How did the Sumerians know of things that happened before their time? From studying the Sumerian texts in their original language, Sitchin has discovered that this information was communicated to them by the Anunnaki visitors from the planet Nibiru.

In this presentation Rev. Donald Cooper will condense some of what Dr. Sitchin has discovered and reported in his writings and lectures. Rev. Cooper is a retired Presbyterian minister who is currently serving as Stated Supply pastor of Conley Memorial Presbyterian Church and as moderator of Buladean Presbyterian Church. Don is a charter member of the North Carolina chapter of MUFON and is a MUFON investigator and researcher. He has attended Sitchin Certification Seminars in Santa Fe, NM and Philadelphia, PA.

Rev. Donald Cooper

Thursday, Mar. 7, 2002

Doors Open - 6:45 p.m.

Meeting - 7:15 p.m.

Early Meditation - 6:30 p.m.

The Raleigh Chapter of SFFI holds meetings on the first Thursday of each month (except July) at the Unitarian Universalist Fellowship of Raleigh, 3313 Wade Avenue, Raleigh, NC. There is a \$5 charge at the door. Meditations begin at 6:30 p.m. Lectures begin at 7:15 p.m. We look forward to seeing you!
