

Spiritual Frontiers Fellowship International - Raleigh Chapter
presents

In the Company of Angels

'Angels surround us,' says Susan. 'Angels appear to us as visions of Light; sometimes they appear as humans, and sometimes God uses us as Angels for others. Let's talk about who and what Angels really are, and how you can go about living your life in the continual company of Angels.'

In an entertaining and loving presentation, Susan Kaney will share some of the many and amazing real-life experiences and adventures she has had with Angels during her life. She will also share with you wisdom and knowledge she has gained from Angels, along with motivational techniques that can help to open the Spiritual doors of your inner self. These techniques will help you become more aware of the continual and active presence of Angels that surround you on a daily basis.

Susan Kaney has been actively involved in metaphysics for over 33 years, as both a lecturer and organizer for metaphysical groups around the country. Her entry into metaphysical studies began at age 17 when she was pulled out of her body by an Angel of Light and told that God had a specific life mission for her to accomplish. She is the author of the highly regarded book *Angel Crossing*, and is a regular contributor to *Concepts Magazine* out of Anaheim, California.

Susan is also a co-founder of the Southeastern Conference, a week-long spiritual gathering held yearly in Greensboro, NC, which is now in its eleventh year. Join us on Dec. 5 and prepare to fully enjoy yourself as you learn to live your life 'In the Company of Angels.'
