Owning the Hi-Frequency Life— The Art of BUT-Free Living

Join us as our very special guest Eddie Conner, Hollywood's "BUT Doctor," shares his wit and wisdom about living a BUT-free life!

Are you tired of working long, hard hours and getting little monetary compensation in return? Are you frustrated in love, money or career? If so, this presentation is perfect for you.

What is the *Hi-Frequency* life? It's living without contradicted beliefs that sabotage our desired good. Every second we emit thought and feeling frequencies that are either high or low. When we choose to feel good, we radiate a Hi-Frequency; conversely, when we choose to feel bad we emanate a lo-frequency.

Simply stated, our Hi-Frequency = Prosperity Consciousness and our Lo-Frequency = Poverty Consciousness.

The universe responds to our feelings 100% of the time. As a result the invisible universe is delivering manifestations to us based on our high prosperity consciousness or our low-grade poverty consciousness. The art of living BUT-Free is easy. All we need to do is to hold onto more of our internal hi-frequency thoughts and feelings for longer periods of time in order to manifest the people, places, circumstances and situations that promote a win-win life-style!

Eddie offers lots of fun, animated tools and personal life lessons so that you may experience BUT-free living! You don't want to miss this extraordinary presentation. Bring a friend and share in the excitement of owning the feel-good life.

Eddie Conner is a Soul Intuitive, Humorist and the *Hollywood BUT Doctor*. To date he has been heard on thousands of radio and television stations in North America. An accomplished speaker and author of *Kicking the Big But Syndrome*, Eddie tours the globe conducting metaphysical retreats and world tours to the Far East, Mexico, Alaska and Peru. His mission statement is to *Heal America's real Crack problem one BUT at a time*. Eddie and his teeny weeny BUT live in Los Angeles.
