## Accessing Past Lives to Heal and Transform the Present

*Following an in-depth look at the value of past life exploration, those who attend the March 2 meeting will have the opportunity to personally experience a past life regression and encounter first-hand the positive impact on a current life situation.*

The doctrine of reincarnation states that this present lifetime and its body, health, fears, desires, talents, relationships, finances and daily events are shaped by many former incarnations. This concept, as metaphor or dogma, gives us a paradigm for comprehending the complexity of our phobias, interests, talents and prejudices. This view can bring meaning to seemingly random encounters and events.

Through the study of our distant past we acquire compassion and wisdom. We enter foreign worlds to explore different genders, cultures, professions, environments and historical periods. We comprehend the causes of adverse conditions in our lives and remedies for righting them. We access latent talents and relinquish prejudices. We claim the fuller, richer existence that is our birth right.

Whether or not we believe in reincarnation, we can benefit from this work. Past-life memory reminds us that all people share a common life experience on Earth. What one person experiences, we all experience. The concept of shared consciousness is witnessed daily. While listening to the nightly news, our hearts go out to those in distress. We do not need to live through a tornado to imagine the terror. By nurturing our ability to walk in another's shoes, we expand our sense of humanity and our ability to love and forgive.

Each lifetime reflects merely a minute portion of each soul's journey. If we examine only the present lifetime, we miss an opportunity to see ourselves wholly. Through the memory of the soul's past, we have the opportunity to embrace the shadow and the light of the human condition. By accepting our humanness, we can learn to express unconditional love for ourselves and others.

Following an in-depth look at the value of past life exploration, participants will have the opportunity to personally experience a past life regression and encounter first-hand the positive impact on a current life situation.

## New Book by Susan Reintjes

### *Third Eye Open* *Unmasking Your True Awareness*

**Third Eye Open--Unmasking Your True Awareness** is an innovative and informative manual that gives specific instructions for answering your questions. You will learn to uncover unfinished issues and clear the way for positive external change. Viewing the world as a classroom, this is an edifying and intriguing guidebook for developing psychic abilities and interpreting daily spiritual lessons. By learning to decode cryptic messages in encounters, dreams, animals, machinery, and weather conditions, the reader uncovers vital spiritual data to discover compassion, health, love and wisdom.

“In spiritual endeavors, the familiar adage, ‘Old business before new,’ is apropos. Many of us know we are repeating old patterns; yet, we are uncertain how to break our habits and move forward. In daily life, we are surrounded by many clues and signposts that show us where our particular unfinished business lies. Once we know how to read these signals, we can enliven the unaware portions of ourselves.”

~ Excerpt from *Third Eye Open*
