Creating a World that Works for Everyone

Werner Erhard wrote, “You and I want our lives to matter. We want our lives to make a real difference—to be of genuine consequence in the world. ... We want to make the world work.”

Each of us longs for, prays for, desires, and intends for the world to be a better place and for our presence to make some kind of difference in our local scene and also on the global one. **Rev. Denise Schubert** will explore how, through our conscious awareness and use of spiritual principles, we can all powerfully participate in the creation of a world that works for everyone.

Science of Mind offers us ways of understanding this desire and suggests plausible pathways to use our individual lives to improve the world. Not only do we make a difference in creating this world; we *are* the difference.

Join us for a tantalizing exploration of how the Science of Mind philosophy, New Thought, Ancient Wisdom principles, and quantum physics provide pathways of understanding and action. Highlights include:

- The co-creative relationship you have with the Universe
- Source energy as amazing love and immutable law
- Why we matter everywhere, all the time
- The presence of Universal mind and Universal heart
- Change your thinking, change your life
- Teaching someone how to think is teaching someone how to live
- How to become a paradigm shifter
- Part of the problem or part of the solution: our choice.

Rev. Denise Schubert is an ordained Science of Mind minister and teacher and the spiritual director of the Triangle Center for Spiritual Living.
