Vocal Toning as a Path to Cosmic Consciousness

The Semitic languages of Aramaic, Hebrew, and Arabic, as well as Sanskrit and many other indigenous languages are built upon specific phonetic sounds relating to personal states of consciousness. The meanings of many of these sounds work together to create vibratory experiences meant to awaken our awareness of this essence within ourselves, and to hyper-stimulate our perception of body, mind, spirit, and environment.

In this talk, based on his forthcoming book *Echoes of an Ancient Dream*, **Dale Allen Hoffman** shares a deep look into the cleansing and transformative power of vocal toning. Also known as intonation, conscious breath work, and meditative silence, it can be a daily spiritual practice to transform the architecture of your soul.

Dale will explain the *midrashic pades* (interpretive levels) of meaning embedded within sacred alphabets, languages, glyphs, and teachings; describe how a deeper understanding of these layers helps foster the cultivation of a direct, experiential relationship with humanity's most sacred teachings; share the sacred origins of the ancient Hebrew and Aramaic alphabets; and lead specific exercises and practices to help awaken an ever-deepening awareness of the evolving nuance of meanings beneath the literal surface meanings of sacred and religious texts. He'll allow time for an extensive question and answer session and will discuss recommended reading and resources for further personal or group study.

After decades of intensive study and teaching, Dale is one of the world's leading authorities on the direct, practical application of the ancient Aramaic teachings of Yeshua. He travels internationally sharing the rich spiritual wisdom that has been veiled beneath two millennia of misunderstandings, skewed translations, intentional manipulation, mythic embellishments, and a general lack of spiritual perception. He has published numerous audio CD programs including *Learn to Speak and Intone the Aramaic Lord's Prayer of Yeshua*, *Beyond Duality: The Resurrection of Eve*, and *Realization of the Christ Within*; and a DVD program, *The Word: Sacred Illumination of the Original Aramaic Teachings of Yeshua*. His first book, *Echoes of an Ancient Dream*, about the ancient Aramaic practice of vocal toning, is slated for publication in late 2014.
