

Spiritual Frontiers Fellowship *presents*

Healing Physical and Emotional Pain through Kinesiology

Energy kinesiology integrates principles of the ancient acupuncture system with the body biofeedback tool of muscle testing and a wide array of energy techniques. Kinesiology can access your inner wisdom to guide the process of healing and growth in the body, mind, and spirit, releasing the blocks preventing you from expressing your soul's potential.

In this talk, **Larry and Arlene Green** will demonstrate breakthroughs in hands-on energy technology and practical skills that you can use to release your stress responses, address life's challenges more productively, and allow you more easily to walk your spiritual path with practical feet. Spiritual leaders such as Dr. David Hawkins, Wayne Dyer, and Donna Eden are enthusiastic proponents of muscle testing, but you don't have to be psychic or highly intuitive to use and benefit from this amazing skill. Highlights of the presentation may include:

- How to balance subtle energy fields
- How to break the reactive cycle of emotional pain and body memory with neurovascular balance
- How to test yourself
- The importance of intention in the healing process
- How kinesiology can be used to protect you from picking up other people's pain.

She is the author of three books: *Top Ten Pain Releasers*, *Specific Neuromuscular and Energy Reset Technique*, and *Emotional Repatterning*.
