

Spiritual Frontiers Fellowship
presents
Relationships and Energy Psychology

“Why am I in this relationship?”

“What’s missing in my life?”

“Why can’t I find the right relationship?”

If these questions sound hauntingly familiar, that’s because they are valid questions whether you are searching for someone, dating, just married, or celebrating your golden anniversary.

In this special presentation entitled “Relationships and Energy Psychology: Understanding Love Beyond Mars and Venus”, **Lee Lawrence** will demonstrate and explain our unconscious motivations and what creates the “chemistry of love.” Every relationship is unique, and understanding this uniqueness is the key to finding love that is fulfilling and lasting. Lee will clearly show—with audience volunteers—how energy psychology techniques can locate the perceptual programming events in our lives that have either shackled us into bad relationships, or motivated us to sabotage good relationships. With such awareness, we can at last truly set ourselves free to enjoy the benefits of healthy love.

Lee’s topics will include: understanding relationship dynamics, soul mates, the chemistry of love, types of love, and the Laws of Attraction. This talk will give new philosophical understanding and perspective on relationships to provide insight for individuals to grow into more intimate, deeper, fulfilling relationships with self and others.

Many people know Lee Lawrence as “The Man Who Reads Souls.” His ability to read the stored memories in people’s soul fields – a skill he has explored for twenty five years ever since his Near-Death Experience – has revealed a wealth of information and insight into the anatomy and physiology of the human psyche. Lee is on the board of directors of the Academy for Spiritual and Consciousness Studies, Inc. (ASCS) and he is an internationally known medical and psychological intuitive.
