In the past few years, the Rhine has been fostering a community of energy healers, examining the effects of biophotons, and studying some special PK practitioners. There are many ideas and theories about healing and PK, and the Rhine lab is examining these relationships using controlled studies. John G. Kruth is the Executive Director of the Rhine Research Center and the Education Director and Founder of the Rhine Education Center. He has studied parapsychology and psi informally for over 35 years, and has been a member of the Rhine Research Team since 2009. John has a Masters of Science in Psychology specializing in research methods and analysis techniques and is using this knowledge to contribute to the research efforts at the Rhine including work on precognition and healing energies. www.rhine.org
