Bridging the Gap Between Quantum Physics and the Spiritual Dimensions of Light

More and more, scientists are coming to accept the role of consciousness in their work. The subatomic particles of quantum mechanics and the energy waves of the spiritual dimension are the same. Quantum particles travel faster than light and can be in multiple locations at once—just like spiritual or psychic energy.

Dr. Mary Asterita-Robol will explore the fascinating and confounding details of this phenomenon. It is an understanding that had been known for thousands of years, but has been lost to most of us; we are now beginning to remember it. When we perceive ourselves as inner beings made up of these non-local quantum particles and spiritual vibrations, without limitations, we will have amazing powers—the only limits to which are our own beliefs:

■ Research “shows that genes and DNA do not control our biology; that instead DNA is controlled by ... energetic messages emanating from our thoughts.” (From *The Biology of Belief* by Bruce Lipton, Ph.D.)

■ “[M]iracles that open the door to a powerful new way of seeing the world, and the science that tells us why the miracles are possible, [reveal that] we are not limited by the ‘laws’ of physics and biology as we know them today.” (From *The Spontaneous Healing of Belief* by Greg Braden)

■ “From the healing of our bodies, to the success of our careers, relationships, and the peace between nations ... we each hold the power to speak directly to the force that links all of creation. What would it mean to discover that the power to create joy, to heal suffering, and bring peace to nations lives inside of you? How differently would you live if you knew how to use this power each day of your life?” (From *The Divine Matrix* by Greg Braden)

Mary will show us scientific experiments that help describe the electromagnetic spectrum, the concept of vibration, what quantum particles do, and how we relate to a “holographic universe.” With photographs of paintings by visionary artist Alex Grey, from the Sacred Mirrors Museum in New York City, she’ll describe the concept of our personal energy fields. She will talk about how DNA plays a role in showing us as light beings; the concept of a “quantum leap” and its energy source; why we are “non-local” and the source of that phenomenon; and the notion of interacting energy fields. She will play for us on an “angel harp”—an autoharp tuned using channeled angel energies—that is “a profound integration [of] the highest vibration of musical tones and the angelic realms of Universal love.”

Mary Asterita-Robol began her spiritual search as a Catholic nun. Since then, her path has led her to studies in math, physics, music, physiology, biophysics, and medicine. As a physician (D.O.) in Indiana and then in North Carolina, she studied biofeedback, Reiki, Arcing Light, and other healing modalities, and incorporated them into her medical practice. Now semi-retired from medical practice, she is pursuing her interests in music and writing. In February, she gave a talk on “Preparing for 2012 and Beyond” at Dancing Moon Books & Gifts. She lives in Smithfield with her husband, Cal, and three cats. Her website is RealmsOfLight.org.

Dr. Mary Asterita-Robol

Thursday, August 6, 2009

3313 Wade Avenue, Raleigh, NC

Admission: \$10;

\$8 seniors & students

Doors Open - 6:45 PM

Meeting - 7:15 PM

Early Meditation - 6:30 PM (free)

Visit us online at www.Spiritual-Frontiers.com.
